

New Hampshire will not opt-in to a national ID card system, and **LYNCH WON'T FLINCH**

Happy Valentine's Day, Governor!

You've shown your love for New Hampshire by saying 'no' to REAL ID, the Fed's national ID card system. When you signed the anti-REAL ID bill (HB 685) into law last year, you said that "we are not about to be coerced into another unfunded federal mandate, especially not one that we will pay for with our privacy".

We applauded you then, and we applaud you now for standing up to bullies like Homeland Security Tsar Michael Chertoff in the face of his idle threats against our state. Tsar Chertoff cannot ban all New Hampshirites from federal buildings, nor can he ban us all from flying: he's bluffing.

America has always been a free country. This is not a totalitarian regime where authorities can demand "Your papers, please!" of citizens. New Hampshire, the "Live Free or Die" state, is one of the last strongholds of freedom in the country. If we don't stand up for our rights, who will?

Governor, we have your back!
